The screenshot shows the Die Presse website interface. At the top, there's a navigation bar with the site name and various menu options. Below that, a large banner for 'No Stress der Pro-Idee Geschenkefinder' is visible. The main article is titled 'Orthopäden warnen vor "Smartphone-Nacken" und "SMS-Daumen"'. The text of the article discusses how young people spend more than two hours daily on smartphones or tablets, leading to neck and thumb issues. It mentions that these problems are also seen in children, with some parents reporting their children's neck pain. The article is dated 12:49 Uhr, 19. November 2018. There are social media sharing icons and a small image of a child's hands holding a smartphone.

The screenshot shows the Salzburger Nachrichten website. The main article is titled 'Orthopäden warnen vor "Smartphone-Nacken" und "SMS-Daumen"'. The text of the article discusses how young people spend more than two hours daily on smartphones or tablets, leading to neck and thumb issues. It mentions that these problems are also seen in children, with some parents reporting their children's neck pain. The article is dated 19. November 2018, 12:54 Uhr. There are social media sharing icons and a small image of a child's hands holding a smartphone. Below the article, there's a sub-headline: 'Jetzt haben auch schon Junge massive Rückenprobleme' and a sub-text: 'Neue Kinderkrankheiten: Smartphone-Nacken und SMS-Daumen'.
